

# **A Heterogeneous, Highly Efficient, and Reusable Mo-Al<sub>2</sub>O<sub>3</sub> Composites Based Organocatalyst for One Pot Three-Component Mannich Reaction for the Synthesis of $\beta$ -aminocarbonyl Compounds**

**Koteswara Rao Anam and Ganesamoorthy Thirunarayanan\***

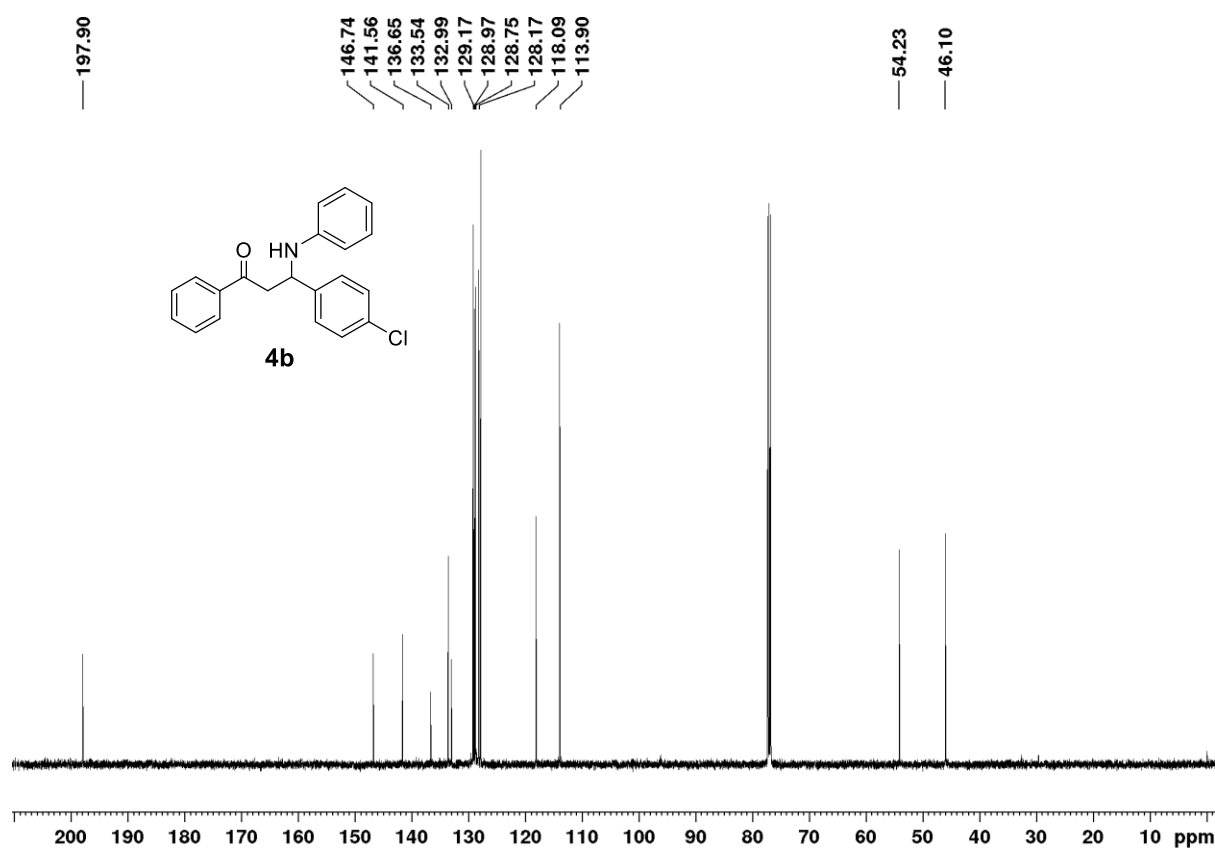

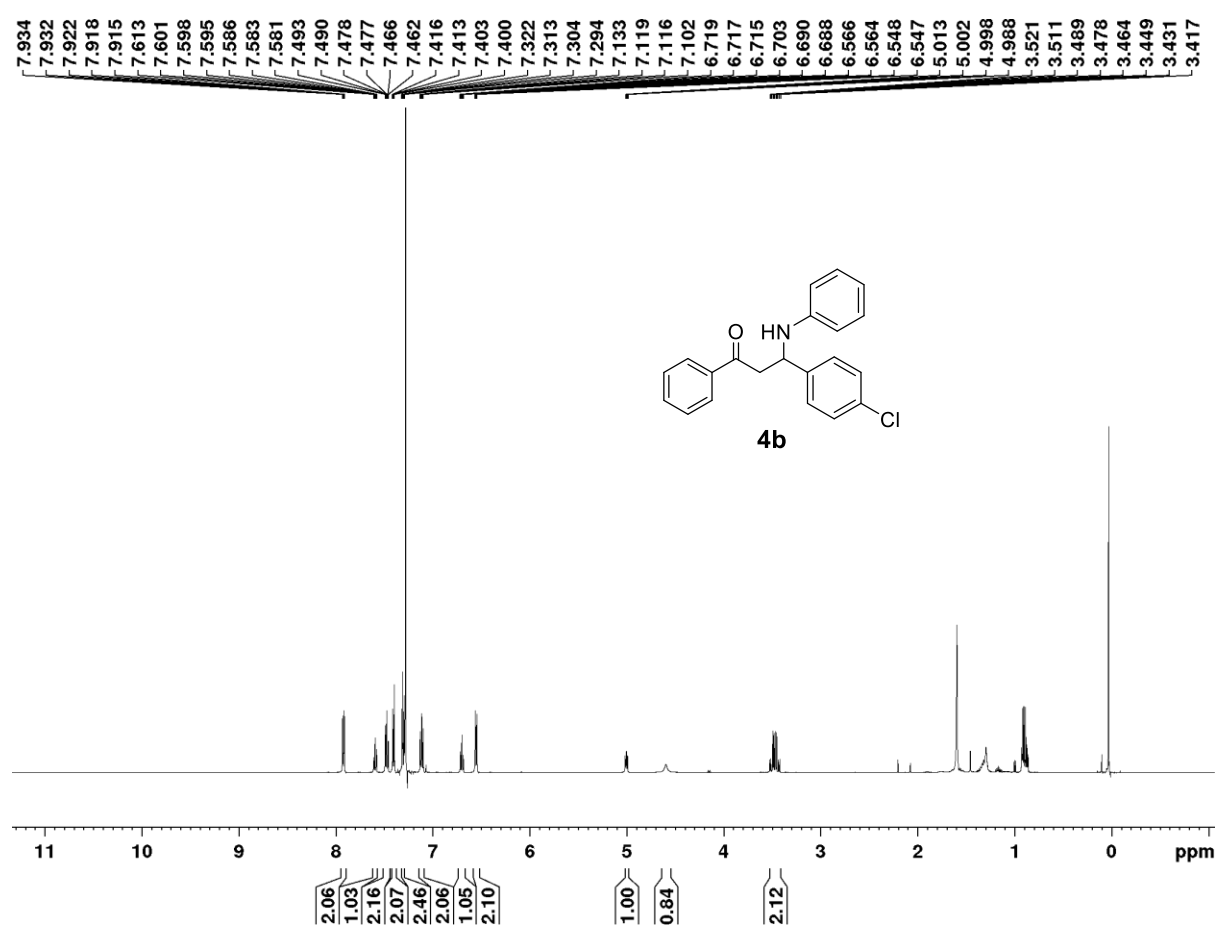

Department of Chemistry, Annamalai University, Annamalainagar, 608002, Tamilnadu, India

<b>Contents</b>	<b>page number</b>
1) NMR spectra for synthesized compounds	S1-S10
2) IR spectra for synthesized compounds	S11-S20
